11/7/72 Ed, if one may be sorry for the reason, illness, can one regret that at least for a while Joesten will besilent?...Cyril's letter to him is lucid self-description...Let us hope against hope and against corrupt and corrupting tradition that the WG tip of the iceberg of repression does not get submerged in such anti-Establishmentarian "Establishmentarian" concepts as "loyal" opposition. This is the true political subversion. And how does "loyalty" to the disloyal become loyal? Hasty thanks, HW
